To the Electors of Victoria District, including Victoria City, Victoria District, Esquimalt and Metchosin.

GENTLEMEN:—In a short time you will be called upon to elect two members to represent you in the House of Commons, and as many electors have expressed to me a desire that I should offer myself as a candidate for that honorable position, I now solicit your suffrages assuring you that if elected, no effort on my part shall be spared to advance your interests at Ottawa or to assist in legislating for the advancement of the whole Dominion.

Politically I am in favor of giving a generous support to the present Canadian Administration, and should strongly advocate the national importance of the Railroad being terminated at Esquimalt. I shall urge the establishing of a Quarantine Hospital at once, the opening of an Immigration Agency at Victoria, the building of a Lighthouse at the entrance to, and the dredging of Victoria Harbor, I should endeavor if necessary to obtain an increased guarantee for the Dry Dock, and should point out the benefit and importance of completing the Railroad from the Pacific to Lake Superior, (at least) in the shortest possible time.

From present information upon the subject it appears there is little prospect of both Houses being in Session this year at the same time, but should it prove otherwise and should I be elected to the Commons, I should feel in honor bound, (although with great reluctance) to resign my present seat in the Local House and enable another representative to take my place.

I remain respectfully
Your obedient
Robert Beaven.

Cheap Cures for Great Diseases.

HOLLOWAY'S OINTMENT

OLD SORES AND OLD SKIN DISEASES.

The seeds of these disorders are effectually expelled by this penetrating Unguent, not only from the superficial parts, but from the internal tissues likewise. Any case, even if of 20 years standing, speedily yields to its influence.

BRONCHITIS, DIPTHERIA, SORE THROAT, ASTHMA.

Rheumatism, and erysipelas may be overcome by frequently fomenting the affected parts in warm water, drying, and immediately applying this soothing Ointment. The same procedure applies equally well for curing sore throat, diphtheria, bronchitis, asthma, tightness of the chest, and pain in the side, which instant treatment alone prevents degenerating into more serious maladies. The Ointment has the same derivative powers over chest complaints as a blister possesses, without causing pain or debility.

HEMORRHOIDS—PILES, AND ABSCESSES.

Thousands suffer severely for years from these annoying complaints through false delicacy. Let such purchase a pot of Holloway's Ointment, read the directions which accompany it, act upon them to the letter, and they will, without difficulty, succeed in obliterating every vestige of these harrassing ailments.

ACCIDENTAL INJURIES, INFANTILE AILMENTS.

In cuts, bruises, sprains, burns, and scalds it will be found cooling, sedative, and healing. The part affected should be fomented in warm water, dried gently, and the Ointment should be instantly applied. This purifying Ointment may be safely used in all eruptions, chafings, and other cutaneous affections to which children are liable.

BAD LEGS, BAD BREASTS, OLD SORES AND ULCERS

By rubbing the Ointment round the affected parts, it penetrates to the tissues beneath, and exercises a wonderful power on all the blood flowing to, and returning from, the diseased part. The inflammation diminishes, the pain becomes less intolerable, the matter thicker, and a cure is soon affected. In all long standing cases, Holloway's Pills will thoroughly expel all depraved humors from the body.

GLANDULAR SWELLINGS. STIFF JOINTS.

This class of complaints yield, without difficulty to the cooling and anti-inflammatory properties of this famed Ointment. It should be well rubbed over the affected parts, after due fomentation with warm water. It acts by stimulating the absorbents to increased activity, restraining ulceration, and promoting a free and copious circulation in the parts affected, and hence speedily and effectually ensuring a cure.

GOUT, RHEUMATISM AND PARALYSIS.

Gout and Rheumatism arise from inflammation in the parts affected,—to effect a permanent cure, adopt a cooling diet, drink plenty of water, take six of these famous Pills night and morning, and rub the Ointment most efectually twice a day into the suffering parts, and a cure is certain. The paralytic patient should take about three Pills twice a week, and let the Ointment be well rubbed into the paralyzed limb, which will, in a very little time, be greatly benefitted,—indeed many cures have been affected by this treatment.

ERUPTION ON THE SKIN.

In this class of complaints, no matter the age, the sex, or the place, or under what name, the disease may be classified, it may be cured if this Ointment be well rubbed into the system, and Holloway's Pills taken night and morning to purify the blood.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs	Fistulas
Bad Breasts	Gout
Burns	Glandular Swellings
Bunions	Lumbago
Bite of Moschetoes and Sand-Flies.	Piles
Coco-bay	Rheumatism
Chiego-foot	Scalds
Chilblains	Sore Nipples
Chapped Hands	Sore-throats
Corns (Soft)	Skin-diseases
Cancers	Scurvy
Contracted and Stiff Joints	Sore-heads
Elephantiasis	Tumors
	Ulcers
	Wounds
	Yaws

Esquimalt Graving Dock.

THE GOVERNMENT OF BRITISH Columbia are prepared to receive Tenders for the construction of a Graving Dock, at the Naval Station, Esquimalt Harbor, under the guarantee provided in the Twelfth Section of the Terms of Union of this Province with the Dominion of Canada, with Section is in the following words:—

"The Dominion Government shall guarantee the interest for ten years from the date of the completion of the work, at the rate of five per cent. per annum, on such sums, not exceeding £100,000 sterling, as may be required for the construction of a first class Graving Dock at Esquimalt."

The Dock to be of masonry, and of not less than the following dimensions:—

Length on floor 370 feet,
Do. over all 400 feet,
Width between copings 90 feet,
Do. on floor..... 45 feet,
Do. of entrance..... 63 feet,

to afford a depth of water on the sill of not less than 26½ feet at high water springs, and to be substantially constructed to the approval of Government, upon a site to be provided by the person whose tender may be accepted.

Further particulars as to site, borings, &c., may be obtained from T. A. BURNLEY, Esq., Chief Engineer to Government, upon application in writing to the Chief Commissioner of Lands and Works.

Tenders must specify the time within which the Dock will be completed, and must be accompanied by drawings and descriptions showing exact dimensions, materials, and mode of construction of proposed Dock.

Tenders are to be sealed, superscribed "Tender for Esquimalt Graving Dock" addressed to the Chief Commissioner of Lands and Works, Victoria, British Columbia, and delivered at his Office before noon of the 15th day of November, 1872.

Persons who may consider the above guarantee to be insufficient, are at liberty to tender on the basis of such supplemental guarantee by the Provincial Government, or upon such other financial inducements, as they may suggest.

The Government do not bind themselves to accept the lowest or any tender.

Each tender must be accompanied by a Bond from the Contractor, and two sufficient sureties, for the payment of £10,000 to Her Majesty, her heirs and successors, conditioned upon the due fulfilment of the tender which it accompanies, provided it be accepted within three months from the said 15th November.

By Command,
GEO. A. WALKEM,
Chief Commissioner of Lands and Works.

Those Essays.

When our local Government formed the resolution to offer a premium for the best written Essay on British Columbia, and actually caused advertisements to be inserted in the papers notifying the public that a reward of $250 would be paid to the person writing the Essay that should be adjudged the best entitled to receive it, the opinion pretty generally expressed was that the idea was a good one, and that the Government were entitled to no small amount of credit for having so energetically taken the subject in hand. In response to the call of the Government we understand that no less than eight or ten competitors have entered the field for the prize, which speaks well for the intellectual and literary character of our somewhat limited population. The various manuscripts have been in the hands of the Government for some weeks now past,—long enough, people are beginning to think, for the Judges to have read them over carefully and be prepared to pronounce upon their respective merits. We sincerely hope that with the publication of the advertisements in the papers, the energy of the Government did not become exhausted, but that with all convenient dispatch the examination of the manuscripts may be completed and the award of the Judges made known. If our Government are entitled to any particular mark of distinction at all, it seems to us to lie in the remarkable faculty they possess of always being exceedingly busy and yet turning out very little really useful work—and we would therefore venture to express a hope that so far as those Essays are concerned the Government may make them an exception to their ordinary slow-coach method of doing business. It may reasonably be expected that of the eight or ten Essays written, the one to which the premium shall be awarded will possess not only considerable literary merit, but will contain much valuable information concerning the natural resources of the Province that it will be well to circulate abroad for the enlightenment of persons seeking to learn what they can about our beautiful country, with a view to emigrating here and making it their home. We are constantly in receipt of letters from abroad, the writers of which are desirous of being informed on such subjects as they feel specially interested in—some with reference to farming, others stock-raising others as to rates of wages for mechanics, etc., to some of which we have replied at length through these columns, but it is impossible that we can answer all the letters we receive in that way. We have been told by parties lately arrived in this country from the Province of Ontario that there is a constantly increasing demand among the people there for reliable information concerning the climate, soil, trade, commerce, and natural products of the country, and in the Essay to which the Government shall award the prize inquirers may expect to find all the information they desire under each and all these heads clearly and succinctly set forth. Hence the importance of pushing this Essay affair to an early completion as regards making the awards, in order that the prize Essay may be printed for general circulation abroad. This is justly said to be an age of advertising, for no intelligent business man now-a-days would ever think of conducting a business with any hope of success without advertising it liberally and letting the public know the nature of his business and what he has to sell; and it is pretty much the same with new countries having lands for sale and in want of people to purchase and occupy them. The country that does not make itself known abroad in the great centers of population, and tell of its resources and the advantages it has to offer to those who may choose to make it their home, cannot expect to succeed in winning population to its shores. There is not a State in the American Union nor a Province in the Canadian Dominion, British Columbia excepted, that does not spend thousands of dollars annually in the way of advertising in one way or another the respective advantages of each as a field for for immigration, and the result is just what might be expected—while neighboring Territories, States, and Provinces are rapidly being filled up by immigration from abroad, British Columbia is barely holding her own, and thankful she is no worse off. It is high time we began to advertise as well as our neighbors, and it strikes us we could not make a better beginning than by circulating say ten or twenty thousand copies of the forthcoming prize Essay throughout Canada, the States, England, and the Continent of Europe. If this country is ever to be populated it must be done in some such way, and the sooner it is gone about in good earnest the better.

☞ Memory presides over the past. Fell's Coffee over the present. The first lives in a rich temple hung with glorious trophies, and lined with tombs. but Fell's Coffee has but one shrine and that is every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealers in British Columbia. Beware of spurious imitations. ly *

A. Gilmore, Merchant Tailor, has removed his place of business to the store adjoining the Colonial Hotel, Government street, four doors from Yates street, where he is prepared to sell, at reduced rates, Custom Made Clothing and Gents' Furnishing Goods. Also, Garments made to order, according to the Latest Styles. *

From Europe.—Amongst the arrivals by the California were some beautiful novelties in lace, bows, ties, collars, &c., fresh flowers, straw and crinoline hats of the latest summer designs. These goods will be shown at London House to-day. *

Dr. Asche, Oculist, Aurist, and Physician for chronic diseases, will be at the Pacific Hotel, Olympia, from June 29th until the 8th of July, and at his apartments, corner Third and Morrison streets, Portland,—from the 12th of July until the 12th of August. *

Present:
His Excellency the Governor-General in Council.

ON the recommendation of the Honorable the Minister of Customs, and under the authority conferred by the 12th article of the 122d Section of the Act 31st Victoria, Chapter 6, intituled "An Act respecting the Customs," His Excellency has been pleased to order, and it is hereby ordered, that Horses and Mules, or other pack animals, bringing provisions or other merchandize from the United States Territory across the Southern Boundary of the Province of British Columbia, be admitted without payment of duty, on Bonds being given in an amount equal to double the duty on the animals brought in and conditioned for the due exportation thereof within a period of three months from the date of their entry into such Province, or the payment of the duties upon the due entry before the expiration of that delay.

WM. H. LEE,
Clerk Privy Council.

City Council.

The Council met last evening; the Mayor and a full Board were present.

COMMUNICATIONS.

A communication was read from Mr. Tierney, praying that $5, poundage fees on some pigs, might be refunded, as he had been sick when the animals were astray.

On motion of Councillor Mitchell, the amount was remitted.

A communication was read from Messrs. Drake & Jackson, stating that land purchased by the Municipal Council for the uses of the city ought to be purchased in the corporate name, and the conveyance should be made in such name, recorded and filed.

A communication was read from Dr. Matthews, to the effect that a certain drain at the rear of the Omineca Saloon was in a bad state.

On motion of Councillor McMillan, the Clerk was instructed to notify the owners of the property to abate the nuisance forthwith.

The following bills were referred to the Finance Committee for payment: J. Wilcox, fencing the new pound, $65; putting a fence round the cistern on Langley street, $4; J. Weiler, for goods, $9; Matthews Richards & Co., $2 75; T. Cragie, for labor, $12; T. Taylor, $11; P. Hall, for wheat, $3 12.

The following tenders were received for the completion of Mr. M. Wells contract for the gravelling of Pandora street: A. Beswick, $235; J. Kelley, $225; A. Strong, $310; M. Towey, $185. The latter was accepted.

FURTHER CONCERNING THE OMINECA POISONING CASE.—A correspondent of the New Westminster *Guardian* writes on the 16th June from Mansen Creek:—"I have very sad news to convey to you touching the death of three miners from eating, what they supposed to be, mushrooms. The first victim was A. E. B. Mann, a native of New York State, he died on the 13th, at noon, and was buried on the following day. The next was David Humphreys, a native of Lexington, Kentucky, he came to California in 1850, and to British Columbia in 1858, he died about 10 p m., on the 14th. The third was William Cook, a native of England, who died at 3 a. m., on the 15th, he leaves a young wife in Victoria to mourn his loss; she only joined him last winter, being one of the sufferers by the railway blockade. Mr. Fitzgerald held an inquest on the bodies, the verdict was: 'Death from eating fungus supposed to contain poisonous matter.' There were 8 or 10 who partook of the mess, but the survivors are getting better, though still very sick. The fungus grows on rotton wood, and is an ugly thing to look at. The symptoms were the same in all, and commenced by a dryness in the throat, with a bitter taste in the mouth; a chill ran up from their feet to the stomach, followed by cramp; to this succeeded vomiting with partial relief, then a repetition of the same sensations, with twitchings over the whole body. A. E. B. Mann's funeral was very well attended, the miners turning out *en masse*; but the rapid progress of decomposition in the other bodies necessitated interment before the time appointed for the funeral, so that few were present."

BASE BALL.—The Dominion Base Ball Club have challenged the Eagle Club to a game, and a match will be played at Beacon Hill on Saturday, 20th, to commence at 1:30 p. m. The Dominions are: D. Davies—Captain, T Cameron. J. Work, G. Irving, J. Graig, E. McTeague, J. Roberts, P Davies, J. Jeffrey. The Eagle Nine are: N. Gowan—Captain, A Piper, J. Partridge, F. Partridge, W. Carter W. McDowell, H. Tolmie, E. Pearkes, R. McMillan. A challenge was received by the Olympic Club last evening from the Union Club to play a match game on the 27th inst., which we believe will be accepted.

THE charge brought against the Puget Sound tug, Favorite, by the Customs of this Province, and mentioned a few days since, was yesterday again heard. The Magistrate has deferred judgement, in order to consider whether the question is one in which he has the power to adjudicate. We understand the Customs are desirous only, to vindicate the law, and would be satisfied with a nominal penalty; should the case be dismissed the full penalty $400 will be pressed in another court,—in another form.

WESLEYAN CHURCH.—On Sunday week next, the work of extending and improving the Wesleyan Church in this city shall have been completed, appropriate services having conducted during the day; three services will be held,—morning, afternoon and evening. The Rev. Dr. Armstrong, of New York, a noted divine, who is at present in San Francisco, is expected to be in Victoria, and will be one of the clergymen to officiate on the occasion; Revs. Russ and Derrick will also be present.

ANCIENT ORDER OF FORESTERS.—A Court of the Ancient Order of Foresters is about to be formed in this city; Bros. F. Payne and E. J Salmon are in communication with the order in England, the latter has received a letter from the Secretary in York, England, instructing him that the Council will be very pleased to grant a dispensation for the opening of a Court here. There are several members in the Province, who no doubt will be glad to learn of the above.

THE VICTORIA PUBLIC SCHOOLS.—It is probable that our City Common Schools will be ready to receive pupils by the 1st August next. Within a few days it will be known who are to be the teachers. It is high time that the means of education should be provided for the numerous children to be seen running at large,—and were the School Trustees only as diligent and earnest in their duties as the Education Board, the public schools of Victoria might ere this have been in full swing.

THE Enterprise arrived at her wharf at half-past three yesterday afternoon. The following passengers were amongst those who came down: Mrs. Bushby and family, Mrs. Edmonds, A. H. Guild, J. S. Drummond, J. Johnston, C. G. Major, J. Black, E. Chadsey, E. Brown, Burch, Berguonnan. Some wool, furs, silver ore, salmon, and berries also came down.

FROM NANAIMO.—The Emma, with the Black Diamond in tow, arrived yesterday marning from Nanaimo, with cargoes of coal for Brodrick & Co. Captain Rudlin reports that he sighted the schooner Carolena on her beam ends, beached on Gabriola Island. She appeared to be full of water, and likely to be a total loss.

H. M. S. Boxer on her arrival from Departure Bay on Tuesday afternoon engaged in rafting the old piles and lumber belonging to Foster's wharf, which have been floating about the harbor to the danger of small craft. She towed the rafts outside the harbor and cast them adrift.

Kootenay Intelligence.

GOOD NEWS FROM THE MINES, &C., &C.

Mr. Johnston, the Mail agent for Kootenay, arrived in town yesterday per Enterprise. He left Kootenay on the 29th June; came via the Spokane and Colville; on the outward trip went the same route, the trail via Shepherd being impassable and unsafe.

The mining news is most encouraging. On Perry Creek a shaft was put down by Montgomery and Kenney, which prospected—the first two pans, seven dollars and ten cents each; the next seventeen buckets paid an average three dollars and a bit per bucket, and the ground has been paying in proportion, so far. A drift was run in from the bottom of the shaft, and the lead is fourteen feet wide, and is said to be the continuation of the Hoff lead, which paid so well for several consecutive seasons. The water was still high, but this company were troubled but very little, an ordinary pump being sufficient to keep the well clear. Other companies are preparing to put down shafts adjoining, on either side.

The Montgomery Co., and others, were preparing to work; some more were taking out pay, especially those above the Falls, where three companies were reported to be taking out good pay.

ON WILD HORSE CREEK

the Hydraulic Companies were all doing well—the Nip & Tuk, Price Co., Griffiths, Sanders, and others—in fact it is universally admitted that the Kootenay country has not been looking so favorably for the past four or five years.

A large band of cattle arrived in Kootenay on or about the 25th ult., from the Walla Walla country, to the number of 359 head. Two other bands were met on the way in, one containing 108; another 120 head. The Kootenay country will be plentifully supplied with cattle this year, and beef is likely to be cheap this season.

The weather has been oppressively warm during the entire round trip, and the flies and mosquitoes more numerous than have been known for many years. It is with the greatest difficulty that either men or horses can get rest, and are obliged very often to travel during the night; it was out of the question to stop in certain sections near to swampy places.

ROADS.

The road from the Boundary line on Moojie River, is put in splendid order; if the trail to Shepherd were similarly made, there is no doubt but it would be the means of diverting the bulk of the trade from Washington Territory and Oregon to this part of the country. A party has been at Hope and Yale, for the past month, trying to engage a train to Kootenay; and although as high as 20 cents per pound for freight has been offered, the packers all seem afraid of the roads. Below Princeton, on the Semilkameen, a most dangerous bluff has to be ascended, whereas about $25, properly applied, would leave this intricate course aside and make a good trail along the river

Mr. Vowell, the new Commissioner and J. P. for Kootenay, was met on the morning of the 5th ult., at Spokane, en route thither—all well.

COLVILLE VALLEY.

The settlers in Colville Valley seem somewhat relieved by the recent report that the Indian reservation will be made on the western side of the Columbia River, instead of the eastern, as was first supposed. Next to Walla Walla Valley this is said to be the most productive in Washington Territory, and some of the settlers have been farming there for twenty or thirty years. The best brands of flour that are produced in W. T. or probably in Oregon, are manufactured by Oppenheimer & Co, of Colville Valley, and has been approved by the C P. R. Survey. The inhabitants think it very hard to be put out of their lands,—although it is intended that they shall be compensated by the United States Government at their assessed valuation; in the event of a contingency, a greater part will emigrate to British Columbia.

Live stock look well all along the route, and there seems to be a disposition on the part of the settlers everywhere, to improve their stock, and thus to be able to send to market a good article in cattle.

STEPHENSON.—The aristocratic-looking gentleman charged with obtaining $1,200 from one of our city banks, by check on a bank in San Francisco, where it is alleged he had no funds, arrived yesterday by the steamer Enterprise. A large crowd waited patiently for half an hour, resolved to see the man who had lately enjoyed the best society in the city, and is now a prisoner. He seemed to feel his present position, and kept his head bent as he walked on shore and to the prison The crowd received him in solemn silence, and, with excellent taste, waited to smile behind his back. He came down a first-class passenger, in charge of Constable Archie. At New Westminster the gentleman and his guard stayed at the Colonial Hotel, and the gentleman paid his own expenses. Since his arrest he has not suffered any of the inconvenience sometimes felt by men in humble circumstances who have been charged with serious offences.

MAINLAND.—The midsummer examination of pupils of the N. W, public school was held on Monday; 40 or 50 children and a large number of visitors were present; prizes were contributed by the teacher, Mr. Burr, Rev. Mr. Jamieson, and others. Great fires are raging in the forests in the vicinity of Burrard Inlet, and at other points; the Enterprise on her way out of the river found it difficult to make the channel. Mr. J. Edwards has arrived down from Cariboo; he exhibits some very fine nuggets taken out of the Lightning and South Wales claims, Lightning Creek. Harvesting has commenced on the Boneparte; a large yield is expected. On the Nicola Lake, farmers are also doing well with their crops. During a "blow" outside of the Inlet Narrows, a few days ago, the steamer Union, having a lumber laden scow in tow, was obliged to let go, when the scow went ashore, used up; the steamer returned to Burrard Inlet.

THE CHILIWHACK.—Samples of wheat and oats grown by Mr. Kipp, of this agricultural district, have been sent down here for exhibition, and may be seen at Frank Campbell's. They are the finest to be seen from any section. Gooseberries grown by Mr. McCutchen, are also well worthy of note. The crops in the Sumass and Chilewack valleys are good. Salmon are very numerous in the smaller streams. Fraser river is still high, but falling. New mines have been discovered on the Nootsahk and Skadgit rivers, and are paying well—so our informant was told, and who had just returned from a prospecting trip up the Chiliwhack and its tributaries, during which he had had a hard time. Our informant says everything is "O.K.," and he would shortly start out again.

I. O. O. F.—At a meeting of New Westminster Lodge, No. 3, held on the evening of the 16th inst., D. D. G. M. Guild, assisted by Past Grand J. S. Drummond, installed the following officers elect for the ensuing term: L. F. Benson, N.G.; H. Elliott, V.G; Alex. Ewen, Rec. Sec'y. Appointed officers—D. Withrow, W.; A. Peel, Con.; A. Hawkins, I.G.; J. Mosey, O.G.; F. Eickhoff, R.S.N.G.; Wm. Fisher, L.S.N.G.; W. Blackie, R.S.V.G.; C. N. Trew, R.S.S.

THE U. S. CONSULATE has been removed to rooms in Masonic Hall, Government street, entrance opposite this office.

LARGE NUGGETS.—Two of the largest nuggets that have ever been found in British Columbia were brought down in the Enterprise, yesterday, by Mr. Edwards of the South Wales claim, Lightning creek. The smaller of the two is long and flat, perfectly pure piece of gold, and weighs 25 ounces; the other weighs 28 ounces, and has a few specks of quartz only, impregnated with it.

AT the Public School Examination on Monday, the question having been asked, "What is the capital of the Dominion of Canada?" a small boy—anxious to distinguish himself—answered "Victoria!" Of course everybody laughed; but to readers of the Victoria journals the mistake will not appear so very ridiculous.—*N. W. Herald.*

MR. ROBERT SMITH, M.P.P., made his appearance in town, yesterday, after an absence of several weeks from the gaze of the populace. He expects that within a few weeks he will be able to *stump* the Yale District for the Commons, against Mr. Barnard, who is reported to be canvassing the electors in the interest of a friend.

POLICE COURT.—Ah Toe, a Chinaman, was charged yesterday with misprision of felony, and was remanded for trial. The case is in connection with the robbery of goods at Messrs. Turner, London House, some months since.

LIGHTNING CREEK.—The *Guardian* says that late discoveries in relation to the lead has raised the estimation of the ground in the opinion of the miners so that it will be the busiest camp in Cariboo this year.

PICNIC.—The boys of the Collegiate School enjoyed themselves yesterday, at a picnic in the country. Williams' large 'bus took them out. On their return through town, last evening, the youngster's cheered most lustily.

FIRES.—The atmosphere yesterday was dark and murkey, with dense clouds of smoke caused by the woods on fire on all sides. The heat reached 83° in the shade, Fahrenheit.

MR. T. B. HUMPHREYS, M.P.P., we learn, is actively canvassing the Clinton-Lillooet District for the Commons, and with every prospect of success.

REAL ESTATE SALE.—Messrs. J. P. Davies & Co., will offer for sale at auction to-day several valuable and choice lots of real estate.

THE jury in the Stokes New York murder case, can't agree.

THE Robert Cowan sailed yesterday morning for Honolulu.

THE Prince Alfred has arrived down.

Our Kootenay Correspondence.

KOOTENAY, B. C., June 26th, 1872.

EDITOR STANDARD:—Opportunities to communicate with you from this district are like angels' visits, few and far between; but we hope this state of things will not continue any longer. On examination I find that only six mails have arrived at Kootenay since the 1st of July, 1871, to the present time. The following are the dates of their arrival: July 17th, September 11th, October 27th, November 25th, 1871; the next mail arrived here on the 22d of April, 1872, and the last on the evening of the 23d of the present month. People here complain bitterly of being completely isolated for five months last winter, when the frontier settlements of the neighboring territory have received a weekly and semi-weekly mail all through the winter months.

Moberly's surveying party, pack train, &c, passed through here some time since. They are engaged at present cutting their way through, from their last winter's encampment to Jasper House. Some of the surveying party penetrated through Howse Pass to the east side of the Summit, last winter They found the height of land about 4,500 feet; depth of snow at the Summit, in March, 7 feet; at two and a half miles west of the Summit 5 feet; decreasing rapidly in a westerly direction. These facts are obtained from a reliable source. From the same authority, I learned that there will be no engineering difficulties to contend with in constructing a railroad through Howse Pass, should that route be adopted.

Mining operations are going on briskly here; every miner in the district is at work, and all making something—a good many doing very well. A prospect of $7 to the pan was obtained at a depth of 40 feet, on Perry creek last week. A large quantity of mining ground has been since located, and people are cheerful and hopeful of better times. A prospecting party of four men, well equipped and supplied, are out in the country about the headwaters of the Columbia and Kootenay rivers. They and their friends are confident that they will discover good diggings, as gold has been found heretofore in different parts of the country they have gone to.

Wages here are from $3 to $5 per day. Flour, 14c per pound, retail; beef, 15c to 20c; sugar, 33c to 40c; tea, $1 50; bacon and hams, 40c to 50c; potatoes, cabbages and turnips, 4c to 6c, beans, 33c;—not a very fashionable diet.

A few farms are located in the valley; there is room for plenty more. Climate and soil good; abundance of water and good facilities for irrigation.

There are about seven hundred head of cattle in the district; average consumption, five bullocks per week.

Walla Walla reaps all the benefit of our trade. Merchants and others there, say that Kootenay has done more to build up their town and neighborhood than any one mining camp in their own country. They are alive to this fact, and desirous to secure a continuance of our trade; hence the roads, trails, bridges, ferries, etc., are kept in order by enterprising individuals, for the Territorial Government does not spend one dollar on the route. Yet the people seem to believe that God will help those who help themselves, and the result proves the correctness of their belief, and the truth of the doctrine. Perhaps it would be well for the people of Victoria and New Westminster, importers, merchants, steamboat companies, carriers, &c., to make a note of this, and not to allow pride or penuriousness to prevent them from benefitting by the example.

The Americans, although heavily taxed, can find private means to appropriate, even for a trail, bridge or ferry, and take their pay in the profits derived from an increased trade. But our people are different; they look to the Government over James Bay, as helplessly as the thirsty Israelites did to their leader in the Wilderness. Moses had power to smite the rock and bring forth water sufficient to satisfy his famished followers, but where is now the power beyond James Bay, or elsewhere, potent enough to bring forth sufficient current coin, to carry on all our required improvements, out of the recesses of an empty Treasury?

Matters stand thus: The trade of Kootenay, at present, is an item of considerable importance; it is probable, nay certain, to increase; the question is, how can its benefits be secured for our own people? Time will not at present permit me to enlarge upon this subject, but I will, after diligent enquiry, and careful personal observation, in my next letter, treat further of this matter.

SAUNTERER.

By Electric Telegraph.

SPECIAL TO THE DAILY STANDARD.

LAST NIGHT'S DESPATCHES.

CALIFORNIA.

SAN FRANCISCO, July 16—Arrived—Bark Powhattan; Seattle; bark Shooting Star, Nanaimo; barkentine W. H. Gawley, Port Madison; ship War Hawk, Port Discovery; bark Camden, Port Ludlow.

Sailed—Bark Oregon, Seabeck; bark Oakhill, Port Blakely.

SAN FRANCISCO, July 15—Arrived—Steamer Prince Alfred from Victoria.

Weather cool, very foggy.

SAN FRANCISCO, July 15—Sailed, bark Oakhill, Port Blakely; Oakland Port Townsend; Onward, Utsalady. Arrived, bark Gen. Cobb, Seabeck.

SAN FRANCISCO, July 16—Flour, jobbing at $6@6 25.

Wheat—market quiet, $1 55@1 60.

Outside rates for small lots of barley, Coast, $1 02½; the range is $1 05@1 10 for new.

EASTERN STATES.

NEW YORK, 15—There was an immense crowd in court this morning waiting to hear the verdict in the Stokes case; the prisoner and his counsel looked rather cheerful, when the jury entered the court and announced that they were unable to agree. The court discharged them and Stokes returned to the Toombs again. Jury stood seven for murder in the 1st degree and five for acquittal. A motion will be made to-day to have Stokes bailed.

NEW YORK, July 14.—This morning, at 11 o'clock, Stokes was brought into court; Judge Ingraham took his place on the bench, and the jury, which had been locked in all night, were sent for. The Judge, addressing the jury, said: "I understand, gentlemen, that you have not agreed."

The Foreman—No, sir; there is no pobability that we can.

Judge Ingraham—I hardly feel at liberty to discharge you yet; the case has occupied nearly three weeks; it was fully tried, and the time you have had for its consideration has not been very long. I cannot see any way to discharge you now, hence I will arrange so that you can send for me at any time to consult. The jury was then locked up again.

AFRICA.

NEW YORK, July 17—The *Herald's* letter from Stanley gives the history of the meeting of Dr. Livingstone and the latter's account of his explorations. He says the Chambore is the head water of the Nile's source. The Doctor tells of two countries through which the great river runs; tells of the skilful manufactures of fine grass cloth, rivalling India; of people nearly white and extremely handsome, whom he shows to be the descendants of the ancient Egyptians; of copper mines at Kalauga being worked for years. Dr. Livingston and Stanley explored the head of Lake Tangynayika and returned to Uigigi where they spent Christmas. Stanley says he found Livingstone in very destitute circumstances, having been robbed and deserted by his men. He looks to be only 50 and is quite hardy. In March, 1872, he goes to organize an expedition to explore certain doubtful points which he thinks will take 18 months, when he will return to England.

EUROPE.

GENEVA, July 15.—Count Schlops, President of the Board of Arbitration, the Brazilian Member, Messrs. Channing and Davis are already here. The English agents are expected here this morning. To-day's sitting will be purely formal, and the proceedings, therefore confidential.

LATER.—England's representatives in the arbitration have arrived. It is believed that the session of the Board will continue from six weeks to two months, with four sittings each week. The English agents will make a strong contest against the American claims, but the prevailing impression is that the award in favor of the United States will be large.

PARIS, July 15.—Thiers entertained Gen. Sherman and party to dinner, yesterday. The foreign Ministers were presented to Theirs, and several officers of the French army were among the guests.

Cataczy published a pamphlet justifying his course while representing the Russian Government in the United States.

LONDON, July 15.—Storms and floods were particularly disastrous in Cheshire and Lancashire, where a large amount of property was destroyed, and several lives lost.

HAVRE, July 16—The regatta was won by the yacht Sappho, beating the Livonia by 90 minutes.

LONDON, July 14—The *Observer* anticipates that by the award to the U. S. Government at the Geneva tribunal, England will be obliged to pay heavy sums for direct damages; although it is believed the amount will fall several millions below the American estimate.

Parliament will probably be prorogued on the 6th of August.

BERLIN, July 16—The German regiment from America, who are to take part in the Federal Schutzenfest, arrived last week in Hanover. They had a most cordial reception. In the welcoming address frequent allusions were made to the enthuisasm manifested in the United States at the victories during the late war.

LONDON July 14—The mail steamer from Rio Janeiro has arrived at Southampton.

The Brazilian Government had declined to to receive General Nito as Plenipotentiary from the Argentine Confederation. The Brazilian Government was preparing for hostilities. The arrival of large quantities of munitions of war, ordered in Europe, was expected. The dispute with the Argentine States arises from the non-fulfilment of the treaty concerning Paraguay.

BREACH OF PROMISE CASE.—At the Leeds Assizes, last week, Mr. Justice Keating tried an action for breach of promise of marriage. The plaintiff was Charlotte Ann Issott, and the defendant, Mr. Smith, was a farmer at Swillington. Miss Issott, the plaintiff, said she was now living at Halston, near Leeds. In July, 1870, she was superintendent in Mr. Robinson's millinery establishment in Regent street, London. On account of the illness of Mrs. Mills, her sister, she came down to Yorkshire. One day in Briggate, Leeds, she met the defendant, who pressed her to spend a day at Mr. Dalby's, a friend of both, and she agreed to go. While there the defendant asked her if she would be his wife. She said "Yes," without any hesitation. She had been told that he was a respectable, steady man, and a rich one as well. On a Sunday he spoke to Mrs. Mills about the engagement, and asked if he might come to the house to pay his addresses to her sister. Mrs. Mills consented. Witness went to Doncaster, and there she received a letter from the defendant, addressed to "Dear Miss Issott," saying he had had such uneasiness of mind that he did not know what to do for the best; and added, "I cannot see any prospect of changing my position for some time to come, and having given the matter due consideration, I cannot come to any other conclusion than that it is better for us both to give it up. Hoping that you will not think that I am unkind, I remain your well-wisher, R." The jury found a verdict for the plaintiff, damages £400.

FROM NANAIMO.—The Isabel, Captain Ramsay, arrived at 11 o'clock, last night, from Nanaimo, with 100 tons of coal for the North Pacific. Nothing was seen of the schooner Carolena. The ship Reviere was loaded at Nanaimo and was towed to sea last night by the steamer Mastick, which went across from the Sound for that purpose.

MARAVILLA COCOA.—NO BREAKFAST TABLE IS COMPLETE WITHOUT THIS DELICIOUS BEVERAGE.—The *Globe* says, "Various importers and manufactors have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success has been achieved until Messrs. Taylor Brothers discovered the extraordinary qualities of Maravilla' Cocoa. Adapting their perfect system of preparation to this finest of all species of the Theobroma, they have produced an article which supersedes every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For homœopaths and invalids we could not recommend a more agreeable or valuable beverage." Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate Steam Mills—Brick Lane, London. Export Chicory Mills, Bruges, Belgium. *

THE ONLY COMPLETE BOOK-BINDERY NORTH OF SAN FRANCISCO.—The undersigned is prepared to turn out a superior class of work. Magazines, newspapers, etc., bound with dispatch. The most difficult forms of ruling done. Cheques or receipt books numbered and perforated. Charts or maps mounted on linen suitable for the pocket, and drawing paper mounted by the yard or in sections. ROBERT T. WILLIAMS, at T N. Hibben & Co.'s.

WE wonder what induces David Green the clothier of Government street to advertise, as everyone is aware that he keeps the best fashionable made clothing store north of San Francisco. *

THAT original cheap and easy Shaving shop at Fred Payne's, on the sunny side of Johnson street. *

BOARD OF EDUCATION.

NOTICE.

PARTIES DESIROUS OF OBTAINING the necessary Certificates of Qualification for appointments as Teachers in this Province, under the "Public School Act, 1872," are notified that the Board are now prepared at the Education Office, Government street, to examine them and receive their testimonials.

On or about the second Tuesday in July next, all then existing vacant teacherships in Schools taught under temporary arrangements shall, as far as may be practicable, be supplied with teachers selected by the Board from those who shall have become duly qualified by certificates obtained as above.

Applicants for teacherships holding certificates from any duly qualified body will be granted certificates from this Board without examination, should the certificates presented by them be satisfactory to the Board.

By Order of the Board.

JOHN JESSOP,
Superintendent of Education.

already at the Forks, we can sell it cheeper than it can be brought from Victoria. ma1

DR. CHING FUN—A CARD—EDITOR STANDARD:—Through the medium of your paper I want to state the very great good that has been done me by Dr. Ching Fun of this city, next door Kwong Lee & Co. For 24 years I suffered with neuralgia on the brain, which baffled the skull of three first-class American physicians. Lattery bronchitis attacked my right lung, and my eyes became painfully inflamed. Despairing of ever being cured I proceed myself as a last resort in the hands of Dr. Ching Fun, and after five months treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit and find relief, Respectfully,

JOHN HENTON, of Kentucky, U. S.
